THE

FOUNDRY TRADE JOURNAL

(with which is incorporated THE IRON AND STEEL TRADES JOURNAL).

ESTABLISHED 1902.

INDEX TO VOLUME XLVIII.

January to June, 1933.

Head Office:
49, Wellington Street, London, W.C.2.

XUM

Index to Volume XLVIII.

SUBJECT INDEX.

A

Aachen Foundry Institute, Symposium, 118.
Alloy Cast Irons in Automobile Construction, 127, 134.
Aluminium Bronze, 86, 106, 121, 152.
Aluminium Castings, Anodic Treatment and Dyeing of, 423.
Aluminium Metallurgy, 241.
Aluminium, The International Competition in, 78.
American Foundry Industry Seeks Way Out of Difficulties during 1932, 54.
American Foundrymen's Association, Annual Meeting, 13.
American Foundrymen's Association, Programme of Annual Convention, 355.
American Suggestions for Classifying Grey-Iron Castings, 155.
Automobile Construction, Alloy Cast Irons in, 127, 134.
Automobiles, Intricate Steel Castings, 337.

B

"Bakelite" Bonded Grinding Wheels for Snagging, 223.
Balanced-Blast Cupola, Some Experiences with, 7; Discussion, 21.
Bearing for Mill Equipment, New, 75.
Belgian Steel Foundry Industry in 1932, 49.
Belting, Solid Woven Rubber, Impregnated, 28.
Bismuth in Copper, 368.
Brass Foundry, New Demands on the, 27, 160.
Brass Foundry Problems, Some, 221.
British Steel Foundry Industry in 1932, 41.
Bronze Castings, Some Factors Affecting the Soundness of, 317.
Bronze Founding in 1932, 45.
Bronze Tuyeres, 252.

C

Canadian Steel Foundry, A New, 430.
Castings, Drilling Square Holes in, 112.
Cast-Iron Girders Removed from the British Museum, Tests on, 401.
Cast Iron, High-Duty, 3.
Cast Iron, Influence of Several Less Common Elements When Added to, 137.
Cast Iron, Manufacture in Rotary Pulverised-Fuel Furnace of, Discussion, 12.
Cast Iron, Phosphorus in, 90.
Centrifugal Vibrating Screen, the Edgar-Allis Chalmers, 280.
Chains, The Heat-Treatment and Testing of, 428.
Chrome-Nickel Steel Riser Cutting, 324.
Colbond in the Foundry, 417.
Colour in Metal, 96.
Copper Curtailment Problem, 4.
Copper, Notes on the Influence of Volatile Chlorides, 210.
Copper Outlook, Better, 415.
Copper Situation, 296.
Core Shop, Practice and Science, 299.

Correspondence:—

An Oil-Fired Blast Furnace, 151.
Anti-Foundry Propaganda, 186, 233.
Balanced-Blast Cupola, 186, 202, 218.
Cardiff Conference, The, 436.
Denseners, 150.
Elementary Rationalisation, 134.
Estimating Molybdenum in Cast Iron, 218.
Fiscal Policy Joint Committee Brass, Copper and Nickel-Silver Industries, 64.
Foundry Costing, 134, 151, 202.
Foundry Education, 310.
Foundry Exhibition, The, 332.
Heat Reactions in Treatment of Cast Iron by Soda Ash, 332.
Heat Reactions involved in the Treatment of Cast Iron with Soda Ash, 266.
High-Temperature Gas Furnace, 294.
Internal Chills, 447.
Phosphorus in Cast Iron, 202.
Sand Question in Regard to Light-Casting Production, 294, 346, 374.
Selection of Engineering Materials, 186, 202.
Small Chilled Rollers, 170.
Soda Ash, 2.
Soda Ash and Porosity, 447.
Soda Ash Blow-Holes, 422.

Corrosion of Iron, Effect of Sulphur and Phosphorus on the, 413.
Corrosion Research on Light Metals, 162.
Cupola Control: Its Progress, Practice and Value in the Iron Foundry, 124, 211.
Cupola, Some Experiences with Balanced Blast Cupola, 7.
Czecho-Slovakia, Foundry Industry of, 37, 71.

D

Deep-Joint Elimination, 251.
Die Castings, Successful Finishing of, 412.
Drilling Square Holes in Castings, 112.

E

Education, Foundry, 189, 253.
Electric Drive *v.* Gas Engine, 113.
Embrittlement of Low Carbon Steel by Cold Work, 84.
Engineering Materials, Some Aspects of Selection of, 161.
Estimating Metal Stocks, 378.
Exhibition, B.C.I.R.A. and N.I.F.A. Luncheon, 312.
Exhibition, Inaugural Luncheon, 311.
Exhibition, Refractories Association Luncheon, 312.
Exhibition, The International Foundry Trades, 237, 267.

F

Falkirk, Foundry Industry, 14.
Floor Crucible Furnaces, 299.
Follsain Process, The, 220.
Ford Motor Company, Limited, Héroult Electric Furnaces at the Dagenham Works, 219.
Form-Factor Method, Analysis of B.C.I.R.A. Tests by, 193.
Foundry Cokes: Some Impurities and Properties, 299.
Foundry Costing, 91.
Foundry Equipment Industry in 1932, 76.
Foundry Exhibits, More, 295.
Foundry Industry Month by Month, 36.
Foundry of the Future, The, 298.
Foundry Problems, A Few, 119.
Foundry Research in 1932, 44.
Foundry Trades' Equipment and Supplies Association, Limited, Annual Meeting, 341.
French Foundry Industry in 1932, 55.

G

Gas Engine *v.* Electric Drive, 113.
Gas-Fired Furnace, A New High-Temperature, 102.
German Foundry Research, 79.
German Foundryman's Technical Association, 368.
German Iron Foundries, The Situation in 1932 of, 77.
Glass Silk, The Manufacture of, 363.
Green Sand, Some Experiences with Routine Sand Testing of, 426.
Grey-Iron Castings, 376.
Grey-Iron Castings, American Suggestion for Classifying, 155.

H

Hardening and Tempering Vanadium Steels, 28.
Heat Losses from Furnace Walls, 212.
Heat Losses in Furnace Operation, 235.
Heat Reactions Involved in the Treatment of Cast Iron with Soda Ash, The, 239.
Heat-Treatment and Testing of Chains, The, 428.
Heat-Treatment of Chrome Magnet Steels, 70.
Héroult Electric Furnaces at the Dagenham Works of the Ford Motor Company, Limited, 219.
High-Temperature Furnace, A New Gas-Fired, 102.
Hydrogen, Solubility in Metals and Alloys of, 94.

I

Import Duties Act, 8.
Ingot Mould, Making a Large, 206.

Institute of British Foundrymen:—

Annual Convention at Cardiff, 437.
Annual Convention at Cardiff, Programme, 340.
Birmingham, Coventry and West Midlands Branch: Annual Dinner, 89.
Birmingham, Coventry and West Midlands Branch Elects New Officers, 322.
Birmingham, Coventry and West Midlands Branch Lecture, 342.

670.5
V.48

East Midlands, Short-Paper Competition, 298.
Exhibition, Institute Visit, 316.
Institute Elects New Members, 94, 336.
Institute of British Foundrymen, Work of the, 57.
Lancashire Branch, Dinner, 119.
London Branch, Annual General Meeting, 297.
Midland Foundrymen's Dinner at Loughborough, 187.
Newcastle Branch, Annual General Meeting, 340.
Preston Section, Annual General Meeting, 321.
Preston Section, Visit to Irlam Works of the Lancashire Steel Corporation, Limited, 402.
Scottish Branch, Annual General Meeting, 353.
Sheffield Branch, Annual Dinner, 145.
Technical Committee, Second Annual General Report, 422.
Technical Committee and Technical Developments in Connection with the Institute, 349.
Technical Committee, The, 375.
West Yorkshire Branch, December Meeting, 119.
West Yorkshire Branch Dinner, 85.
West Yorkshire Branch Elects Officers, 322.
International Foundry Congress at Prague, Programme of, 402.
International Foundry Trades Exhibition, 237, 267
Iron and Steel Institute, The (Annual Meeting), 333.
Iron-Carbon Alloys, Nitrogen in, 431.
Italian Foundry Industry, 42.

J

Jarr Rollover Machine, New, 144.
Jobbing Foundries in 1932, 59.
Jobbing Foundry, Present Position of Large, 60.

L

Large Ingot Mould, Making a, 206.
Large Jobbing Foundry, Present Position of, 60.
Lead Outlook, Better, 427.
Leaders:—
An Optimistic Forecast, 101.
Anti-Foundry Propaganda, 101.
A Welcome Revival, 117.
B. Met (Foundry), 133.
Cardiff Conference, 345.
Castings Replace Forgings, 133.
Cast Iron Resists Corrosion, 421.
Cast-Iron Roads and Pavements, 169.
Coal and Castings.—I, 233.
Coal and Castings.—II, 265.
Cupola Performances, 149.
Exhibition Impressions, 309.
Exhibition, the Foundry, 265.
Failures.—I, 395.
Failures.—II, 409.
Fireproof Ships, 69.
Founding and the Steel Industry—I, 17.
Founding and the Steel Industry—II, 69.
Fuel Oil Tax, 309.
Furnaces: An International Survey, 17.
Gases and Inclusions.—I, 359.
Gases and Inclusions.—II, 373.
International Standards, 421.
Iron and Steel Institute, The, 332.
Iron and Steel Reorganisation, 250.
It's Up to You! 217.
Metallurgist, Founder and Designer, 1.
Methods of Analysis, 345.
Moscow and After, 293.
Porosity in Castings.—I, 185.
Porosity in Castings.—II, 201.
Providing a Scientific Casting, 233.
Research Work for the Non-Ferrous Foundries, 185.
Review of the Foundry Industry, 33.
Sand Testing, 331.
Slum Clearance, 149.
Steel Castings, 83.
Steel Castings Report, The, 359.
Technical Exhibits, The, 293.
The Blind Spot, 217
The Business End of Research, 169.
The Cardiff Conference, 435.
The Conference Papers, 435.
The Foundry Exhibition, 83.
The Technical Exhibit, 201.
There is Still Time, 373.
Those Obsolete Text-Books! 1.
Time Studies, 395.
Town's Gas for Furnace Use, 409.
Light-Alloy Foundry Trade—Review of 1932, 35.
Light Castings, Industry in 1932, 48.
Lighting a Pipe Foundry, 2.

M

Making a Chemical Plan, 176.
Malleable Castings Industry in 1932, 43.
Mechanical Lead-Joint, Stanton, 118.
Mechanical Testing of Steels at Low Temperatures, 418.
Mechanisation of Foundries, 50.
Metallurgical Polishing Machine, New, 367.
Metallurgy, Recent Developments in, 370.
Mixing Mill Machine, New, 144.
Moulding Machine, New, 151.

N

Nickel-Chromium Hardened Chilled Cast Iron, An Improved, 301.
Nickel-Copper-Chromium Austenitic Cast Irons, The Manufacture and Physical Properties of, 347.
Nitricastiron, 19.
Nitrogen in Iron-Carbon Alloys, 431.
Non-Ferrous Metals in 1932, 74.

O

Oil Engine Foundry Practice (Discussion), 29.
Oil Engine Foundry Practice, Further Notes on, 5.
Oil-Fired Furnaces (B.I.F.), 156.

P

Patternmaking, Modern, 255.
Patterns and Patternmaking, 142.
Phosphorus in Cast Iron, 90, 103, 177.
Phosphorus on the Properties of Hardened and Tempered Cast Iron, The Influence of, 397.
Pig-Iron Imports into the United States, 136.
Pig-Iron Industry in 1932, 60.
Pig-Iron with Higher Manganese Content, 416.
Pipe-Laying Vehicle, Ingenious, 368.
Popular Works Visit, A, 436.
Porosity in Castings, Prevention of, 425.

R

Railway Foundry Practice, Metallurgical Developments in, 47.
Rammed Linings, 300.
Ramming Machine, A New Foundry, 126.
Recent Research in the Iron Foundry, 225.
Refractories, 208 (Discussion, 354).
Refractories Association's New President, 218.
Refractories in 1932, 42.
Refractories in the Cupola, 298.
Refractory Materials in the Foundry, Some Uses of, 140.
Rotary Furnaces in a Modern Foundry, 158.
Rotary Pulverised Fuel Furnace, Manufacture of Cast Iron in, 12.
Routine Sand Testing of Green Sand, Some Experience with, 426.
Russell, Messrs. S., & Sons, The Foundries of, 281.

S

Sand Mixer, Presto, 102.
Sand Question in Regard to Light-Casting Production, The, 257.
Sand-Spun Pipes, 365.
Sand Testing in the Foundry, 171, 191.
Saw, The "New Manchester," 180.
Scrap, Better Outlook, 228.
Scrap in the Foundry, 364.
Scrap-Metal Position, 113.
Selling of Castings, The, 326.
Selling Practice, Foundry, 188, 405.
Silica Sand in Canada, 238.
Silicon-Carbide/Carbon Thermocouple, A, 374.
Silumin Castings, Recent Advances, 342.
Soda Ash, Practical Application of, 9.
Soda Ash, The Heat Reactions Involved in the Treatment of Cast Iron with, 239.
Some Uses of Refractory Materials in the Foundry, 140.
Spalling of Bricks, 70.
Spelter Situation, The, 405.
Spelter Uncertainties, 70.
Stanton Mechanical Lead Joint, 118.
Steel Castings, American Symposium on, 13.
Steel Castings for Automobiles, Intricate, 337, 377.
Steel Castings, Notes on Some Common Defects in, 95, 108.
Steel Castings Production, The Open-Hearth Process for, 351.
Steel Castings Report, Sir Robert Hadfield on, 411.
Steel Castings Research Committee, First Report of the, 361, 379, 403.
Steel Deoxidation, 75.
Steel, Embrittlement by Cold Work of Low Carbon, 84.
Steel for Steel Castings, 22.
Steel Grating for Road Construction, 126.
Steels, Heat-Treatment of Chrome Magnet, 70.
Structure of Grey Cast Iron, Influence of the Carbon Content on, 170.

T

Technical Exhibits, The, 314.
Thermal Spalling, 367.
Tin, Fireworks in, 446.
Tin, Uncertainties, 355.
"Titan" Rotary Oil-Fired Sand Dryer, The, 364.
Training Foundry Salesmen, 179.

V

Vanadium Steels, Hardening and Tempering, 28.
Volatile Chlorides, Influences on Copper, 210.

W

Watt Memorial Institute, James, 213, 368.
Wear of Cast Iron, The 203.
Welding Ferrous and Non-Ferrous Metals, 342.

Z

Zinc in Blast Furnaces, Action of, 123.
